DSE training & risk assessment system

ErgoWize is an award winning DSE system designed to fully automate the compliance process and help users safely manage their workspace.

Customisable training - Instantly adapt training to suit your organisational needs with our fully editable DSE eLearning course.

Risk assessments - Empower users to self-resolve low risk problems and escalate high risk issues with our online workstation assessment

Risk resolution - Prioritise risks, oversee the resolution process and keep employees informed at every step.

Compliance reports - Track compliance with our dynamic reporting dashboard. Use configurable analytics to easily identify compliance issues.

ABOUT US

EssentialSkillz is an award winning international supplier of online compliance software, with offices based in the UK, Ireland and the US. Honesty, expertise and ethical behaviour are the foundations on which our business is built, and are at the core of the relationships we have with our employees and customers.

Since 2001, we have been committed to helping organisations take charge of their compliance training. We are proud of the quality of service we provide and work hard to deliver excellence in everything we do.

LOVED BY USERS - TRUSTED BY ENTERPRISES

We measure success not by how we see ourselves, but by the quality of our customer's experience.

“ I would always recommend great products like WorkWize. We are only just really starting to use the software to it's fullest and having great results. ”
